Manager's investment report

For the year ended 31 July 2025

Investment Objective, Policy and Strategy

The aim of the Virgin Money Growth Fund 2 (the "Fund") is to generate a total return (income and capital growth) over the longer term (5 years or more) from a multi-asset portfolio of shares and bonds from around the world (i.e. globally invested). The Fund is the middle risk fund in the Virgin Money Growth range, which offers three funds with different levels of risk and potential return.

The Fund aims to achieve the objective by investing in other funds, rather than investing directly in individual shares and bonds. This means that the Fund is what's often known as a 'fund-of-funds'. The funds which it invests in may be managed by us, our Investment Adviser, or any other authorised fund manager.

The Fund invests:

• at least 60% in funds that have a higher return potential (compared to other investments in the Fund) – but which carry a higher level of risk, such as shares (from both developed and emerging countries) and higher yielding bonds. This includes company shares, property shares, and higher yielding bonds such as corporate bonds rated by the leading credit agencies as below investment grade (BB or lower); and

• the rest in funds that have a lower return potential (compared to other investments in the Fund) – but which carry a lower level of risk. This includes government bonds (loans to a government) from developed countries, investment grade corporate bonds (loans to a company) with relatively strong credit ratings (BBB or higher), and cash.

The split between higher and lower risk investments, and the types of investment (for example, geography and types of bonds) are chosen so that risk (measured by how much the Fund's value fluctuates, known as 'volatility') is expected to remain within the range 60% to 80% of the risk of world stock markets over 10-year periods. The Fund uses the MSCI All Countries World Index GBP to represent world stock markets.

The underlying funds are chosen to implement the desired mix of assets as per the bullet points above. Normally at least 80% of the funds that the Fund invests in will be passively managed. This means that they aim to track the performance of a particular share index or bond index. The rest will be actively managed funds – this is where the fund manager chooses individual shares / bonds and as a result returns may be higher (or lower) than the market.

One way in which the Fund seeks to manage risks and opportunities is via Environmental, Social and Governance (ESG) considerations. Where the Investment Adviser feels it is beneficial from a risk or return perspective, and suitable investment options are available, investments will be chosen because of their integration of ESG considerations into stock selection (increasing / decreasing allocation to individual companies based on the ESG scoring process of the index provider / fund manager), adoption of sustainable investing objectives or policies, positive shareholder engagement policies, and / or investment in companies providing products and services that support the transition to a low carbon economy. In addition, the Fund will limit (to no more than 0.5% of the value of the Fund's assets) indirect exposure to companies which:

• make more than 5% of their earnings from tobacco products, thermal coal or unconventional oil and gas (such as oil sands or shale gas);

• are involved in the manufacture of controversial weapons such as cluster munitions or anti-personnel landmines; or

• who violate the UN Global Compact principles on human rights, labour, the environment and anti-corruption.

If the Investment Adviser determines that the allocation to the above type of companies does exceed 0.5% of the value of the Fund's assets, the Investment Adviser will take action to reduce exposure to below 0.5% (by selling underlying funds identified as contributing to the over-exposure) within a reasonable timeframe, ordinarily within two months.

We expect the Fund to have a better ESG rating (based on the analysis and scoring system of one or more market leading data providers) and lower carbon emissions compared to investing in the same mix of assets using a standard indexing approach without ESG consideration. This will be reported in the annual value statement when reviewing the non-financial performance of the Fund.

As well as investing in bond and share funds, the Fund may also hold cash or funds investing in cash and money-market investments.

The Fund's mix of investments will be reviewed at least annually and may change in consideration of the outlook for each investment type, but it will always include at least 60% in funds with higher risk/return potential.

Manager's investment report

For the year ended 31 July 2025

Trust Status

The Fund is an authorised unit trust scheme under S243 of the Financial Services and Markets Act 2000 and is categorised as a UK UCITS[1] scheme under the Collective Investment Schemes Sourcebook ('the COLL Rules').

Financial Instruments

In pursuing its investment objective set out above, the Fund holds a number of financial instruments. The Fund's financial instruments comprise securities and other investments, cash balances and debtors and creditors that arise directly from its operations.

Unit Trust schemes are not permitted by the Regulations[2] to enter into a transaction if its purpose could reasonably be regarded as speculative. The Fund's use of financial instruments satisfies these requirements and no speculative trading in financial instruments is undertaken.

The Fund invests predominantly in collective investment schemes, as shown in the Portfolio statement on page 9. Management fees for the funds in which it invests are met by the Manager out of the operating charges set out on page 8.

Risk and Reward Profile

The Fund's Synthetic Risk and Reward Indicator ('SRRI') is 4 on a scale of 1 (lower) to 7 (higher) as it invests in other underlying funds, which in turn invest in a mixture of gilt-edged securities and corporate bonds - which typically provide moderate rewards but carry a lower level of risk, and company shares which typically provide higher rewards but carry a higher level of risk.

For further information, please refer to the Fund's Key Investor Information Document ('KIID').

Distribution

The Fund receives dividend income from stocks held in its portfolio. Every six months, income received is netted off against expenses incurred. Any net balance is distributed two months after the end of the period.

Income Unit Class

The final distribution for the year ended 31 July 2025 will be 1.0357p net per unit paid on 30 September 2025.
The total distribution for the year is 2.6772p net per unit.

Accumulation Unit Class

The final distribution for the year ended 31 July 2025 will be 0.8779p net per unit paid on 30 September 2025.

The total distribution for the year is 2.2590p net per unit.

Fund Performance

For the year ended 31 January 2025, the net asset value for Income Units increased by 6.87%[3] from 130.51p to 139.48p. The net asset value for Accumulation Units increased by 8.97%[3] from 109.30p to 119.10p.

Significant Events

On 8 August 2025 it was announced that Octopus Money had agreed to purchase Virgin Money Unit Trust Managers Limited from its ultimate parent company Nationwide Building Society. The sale remains subject to regulatory approval, and is expected to complete in late 2025 or early 2026. There will be no immediate changes for customers.

[1] Authorised in accordance with the Undertakings in Collective Investments in Transferable Securities (UCITS) Directive.

[2] The Regulations derive from UK and EU financial services legislation including the Financial Services and Markets Act 2000, the UCITS Directive and Financial Conduct Authority (FCA) rules, principally COLL.

[3] Based on published net asset value as shown on page 9.

Manager's investment report

For the year ended 31 July 2025

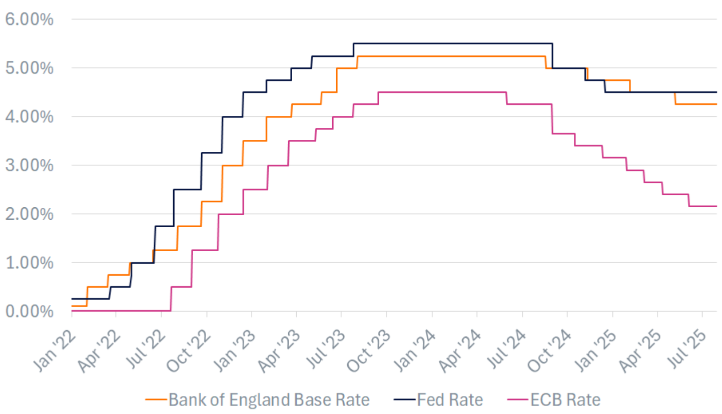
Markets overview from 31 July 2024 to 31 July 2025

Global equities gained as the broader macroeconomic backdrop was generally resilient and artificial intelligence (AI)-led developments continued to buoy technology stocks. Volatility caused by US President Donald Trump's "Liberation Day" announcement in April, wherein major US trading partners were hit with staggering reciprocal tariffs. This abated subsequently as several countries negotiated over a 90-day period and reached trade favourable deals. Meanwhile, the fixed income market had a largely good streak over the twelve-month review period. Global government bonds mostly rose but began falling from the March quarter onwards in sterling terms. Although continued disinflation had prompted the US Federal Reserve (Fed), European Central Bank (ECB) and Bank of England (BoE) to cut interest rates from mid-2024, persistent inflation and US tariff uncertainty led them to maintain a data-dependent stance.

Growth shows resilience while inflation eases but remains persistent:

- As price pressures continued to ease in most major economies, investors looked ahead to further potential rate cuts later in 2025. However, Trump's tariff announcements, which increased the risk of stagflation, prompted central banks to remain guided by incoming economic data.

Global Interest Rates



- The US economy grew at a better-than-anticipated pace of 3% in the second quarter amid strong consumer spending, reversing the unexpected contraction of 0.5% in the previous quarter. The quarterly Personal Consumption Expenditures price index also fell to 2.1% from 3.7%. The Fed cut interest rates three times consecutively in late 2024, bringing the target range for the fed funds rate down to 4.25–4.50%, before leaving it unchanged over the rest of the review period. Investors still expect the Fed to ease policy further in 2025, albeit cautiously.
- Growth in the UK slowed down to 0.3% from 0.7% in the second quarter. However, this was still a better-than-expected print, considering pressure from tax increases and Trump's global trade war. Meanwhile, the Consumer Prices Index rose by 3.8% in the 12 months to July 2025, up from 3.6% in the 12 months to June. The BoE expects inflation to pick up temporarily in 2025 before returning to its 2% target. The central bank lowered the Base Rate four times over the review period to reach 4.25% in May. Investors expect a further rate cut by the end of the summer, amid concerns about the domestic economy. Chancellor Rachel Reeves announced £14 billion of spending cuts in the Spring Statement to help improve the UK's fiscal position.
- Second-quarter growth in the Eurozone increased by a better-than-expected 0.1%, compared to 0.6% in the previous quarter. Germany's sizeable planned fiscal stimulus should further support growth both domestically and across the wider region. Inflation was at the 2% medium-term target and the ECB's deposit facility rate stood at 2.00% in June after eight reductions over the review period. The central bank kept rates on hold at its July meeting, awaiting the outcome of trade negotiations with the US.

Global equities gain, buoyed by easing US tariff worries and strong technology stocks:

- Global stock markets, as represented by the MSCI World Index, rose over the twelve-month period in all major currencies, including sterling.
- Global equity markets ended the review period higher as investors turned optimistic due to interest-rate cuts and soaring technology stocks. The volatility caused by Trump's tariff policies also subsided.
- US stock markets gained, as measured by the broad S&P 500 Index, driven strong corporate earnings and despite Trump's sweeping tariff policies. US technology stocks also rode out the volatility caused by low-cost Chinese artificial intelligence (AI) model DeepSeek, which had investors scrambling to adjust expectations around AI, data centre capex and technology hardware demand.
- UK equities rose resiliently, with the internationally oriented FTSE 100 Index outperforming the domestically focused FTSE 250 Index despite fluctuating oil prices. In July, the FTSE 100 Index crossed the 9,000-point mark for the first time. However, investors remained concerned about the UK's fiscal position, the path of monetary policy, and the potential impact of US President Donald Trump's tariffs on the global economy. The UK and EU announced a reset in post-Brexit relations to strengthen trade ties and foster a more pragmatic partnership.
- European equities, as measured by the FTSE World Europe ex UK Index, climbed in both euro and sterling terms despite uncertainty due to political developments in Germany and France. German Chancellor-designate Friedrich Merz announced plans to significantly increase defence spending and launch a €500 billion infrastructure fund over the coming years, enabled by relaxing the country's constitutional debt brake. Additionally, NATO leaders agreed in June that member

Manager's investment report

For the year ended 31 July 2025

countries would raise defence spending to 5% of GDP by 2035. Finally, in terms of the US trade agreement, the European Union (EU) agreed to reduce import levies on American industrial and automotive parts in exchange for a 15% tariff on most goods imported into the US. The EU also committed to increased purchases of US energy and defence goods.

Tariffs imposed by U.S.

Country	Rate
India	50%
Brazil	50%
Switzerland	39%
Canada	35%
China	30%
Mexico	25%
Vietnam	20%
Taiwan	20%
Germany	15%
Japan	15%
Ireland	15%
France	15%
United Kingdom	10%

- Japanese equities remained subdued for most part of the review period as inflation remained above the 2% target, cooling to a still higher-than-expected 3.1% in July as rice prices eased. The Bank of Japan hiked its short-term policy rate three times over the period to reach 0.5% in January, maintaining a cautious stance on future hikes. However, the market recovered in the June quarter and the Topix index hit a record high in July. Japan's economy expanded 0.3% in the second quarter of 2025, compared to the revised growth of 0.1% in the previous quarter, beating forecasts due to strong exports. Japan also agreed a landmark trade deal with the US, accepting a 15% tariff in exchange for over half a trillion dollars of investment in the US economy.

Bond markets face challenges amid inflation uncertainty:

- Global government bonds gained in local currency terms over the review period but began declining in sterling from the March quarter onwards. 10-year government bond yields in Germany and the UK rose over the first quarter of 2025 but fell in the next quarter. By contrast, those in the US first eased due to investors seeking safe-haven assets amid concerns about an economic slowdown, then ended flat as safe-haven demand was offset by concerns over the inflationary impact of tariffs. By the end of July, investors remained wary about inflation shocks and still changing tariff policy.
- Corporate bonds had a more volatile 12 months. Eventually, in the US, yields on higher-quality investment-grade bonds mostly declined amid heightened Middle East tensions and expectations of further Fed rate cuts. On the other hand, yields on riskier high-yield bonds mostly rose, despite their income attractions, due to growing concerns about credit quality given the deteriorating economic backdrop. However, they rebounded in the June quarter as strong investor demand – supported by a relatively resilient US economy and low default rates – pushed spreads to notably low levels.

Cautious approach amid evolving global macro dynamics:

- As the global trade shock has moderated and the risks of a tariff spiral have receded, the probability of a US recession has reduced. However, uncertainty has not dissipated, with US trade and fiscal policy likely to persist as sources of volatility both for the global economy and financial markets.
- Geopolitical tensions also remain elevated globally, often seeming at odds with stock markets reaching all-time highs. Given the uncertainties and challenges, investor caution is warranted.

Manager's investment report

For the year ended 31 July 2025

Assessment of Value (unaudited)

In 2017 the Financial Conduct Authority (FCA) published the final Asset Management Market Study. This introduced (among other reforms) new governance rules with the aim of enhancing duty of care and ensuring the industry acts in investors' best interests.

The rules were outlined in the FCA policy statement PS18/8 and came into effect from 30 September 2019. As a result, Virgin Money Unit Trust Managers Limited is required to perform a detailed annual assessment, determining whether our funds are "providing value to investors", which has previously been included in the Fund's annual report and accounts. From 2023 the resulting findings for all of the funds managed by Virgin Money Unit Trust Managers Limited are published on a consolidated basis, and can be found on the Virgin Money UK website.

1. Accounting policies

(a) Basis of accounting

The Financial Statements have been prepared on a going concern basis under the historical cost convention, as modified by the revaluation of investments, and in accordance with the United Kingdom Generally Accepted Accounting Practice as defined within Financial Reporting Standard (FRS) 102 and the Statement of Recommended Practice (SORP) for Authorised Funds issued by the Investment Management Association (now known as the Investment Association) in May 2014 and updated in June 2017.

The Manager has considered the impact of global macro environment and potential implications on future operations of the Trust of reasonably plausible downside scenarios. The Manager has undertaken a detailed assessment, and continues to monitor, the Trust's ability to meet its liabilities as they fall due, including liquidity, declines in global capital markets and investor redemption levels. Based on this assessment, the Trust continues to be open for trading and the Manager is satisfied the Trust has adequate financial resources to continue in operation for at least 12 months from the date of the financial statements and accordingly it is appropriate to adopt the going concern basis in preparing the financial statements.

(b) Revenue recognition

Dividends on distributions on holdings in collective investment schemes are recognised when the securities are quoted ex-dividend. Where such securities are not quoted, dividends are recognised when they are declared.

Any reported revenue from an offshore fund, in excess of any distribution received in the reporting period, is recognised as revenue no later than the date on which the reporting fund makes this information available.

If any revenue receivable at the balance sheet date is not expected to be received for a significant period after the accounting year end, a provision reflecting the timing of the receipt for the relevant amount will be made.

(c) Treatment of expenses

All expenses (other than those relating to the purchase and sale of investments) are charged against revenue on an accruals basis.

In order to maintain the operating charges of the Fund at 0.45% (2024: 0.45%) for Income Units and 0.45% (2024: 0.45%) for Accumulation Units, the Manager will rebate to the Fund an amount equivalent to the value of the operating charges incurred by investing in the underlying securities.

(d) Distribution policy

The distribution policy of the Fund is to distribute all available revenue, after deduction of expenses.

Gains and losses on investments and currencies, whether realised or unrealised, are taken as capital and are not available for distribution.

(e) Equalisation

Equalisation applies only to Group 2 units, being units that were purchased during the distribution periods (as detailed on page 27). It is the average amount of revenue included in the purchase price of all Group 2 units and is refundable to holders of these units as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of units for capital gains tax purposes.

(f) Basis of valuation of investments

The valuation point was at close of business on 31 July 2025, which was the last working day of the accounting year. Collective Investment Schemes are valued by reference to their net asset value. Dual priced funds have been valued at the bid price. Single priced funds have been valued using the single price.

All purchases and sales are accounted for on the trade date.

Listed investments are valued at bid market value.

Where applicable, investment valuations exclude any element of accrued income.

(g) Exchange rates

Assets and liabilities denominated in foreign currencies are translated into sterling at the exchange rates prevailing at close of business on the last business day of the accounting year.

Revenue and expenditure transactions are translated at the rates of exchange ruling on the dates of the transactions.

Exchange differences on such transactions follow the same treatment as the principal amounts.

Notes to the financial statements

For the year ended 31 July 2025

1. Accounting policies

(h) Taxation

The charge for taxation is based on the results for the year.

Deferred tax is provided on all timing differences (other than those recorded as permanent differences) that have originated but not reversed at the balance sheet date at the average rate of tax expected to apply. Deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which they can be utilised.

(i) Efficient portfolio management

Where appropriate, certain permitted transactions, such as derivatives or forward foreign exchange transactions can be used for efficient portfolio management. Where such transactions are used to protect or enhance income, the income and expenses derived there from are included in ‘Revenue’ or ‘Expenses’ in the Statement of total return. Where such transactions are used to protect or enhance capital, the gains and losses derived there from are included in ‘Net capital gains’ in the Statement of total return. Any positions on such transactions open at the year end are reflected in the Balance sheet at their market to market value.

Notes to the financial statements

For the year ended 31 July 2025

2. Net Capital Gains

The net capital gains during the year comprise:

	31 Jul 25 £'000	31 Jul 24 £'000
Non-derivative securities	9,764	7,609
Currency (losses)/gains	(3)	1
Net capital gains	**9,761**	**7,610**

3. Portfolio Transaction Costs

Analysis of total trade costs:

	Purchases		Sales	
	31 Jul 25 £'000	31 Jul 24 £'000	31 Jul 25 £'000	31 Jul 24 £'000
Collective investment schemes	112,786	41,336	93,947	31,122
Trades in the year before transaction costs	**112,786**	**41,336**	**93,947**	**31,122**
Commissions				
Collective investment schemes	-	-	-	-
Total Commissions	**-**	**-**	**-**	**-**
Taxes				
Collective investment schemes	-	-	-	-
Total Taxes	**-**	**-**	**-**	**-**
Total net trades in the year after transaction costs	**112,786**	**41,336**	**93,947**	**31,122**

The dealing spread represents the difference between the values determined for investments by reference to the bid and offer prices, expressed as a percentage of the value determined by reference to the offer price. The average dealing spread of the investments at the balance sheet date was 0.02% (2024: 0.06%).

Notes to the financial statements

For the year ended 31 July 2025

Total transaction cost expressed as a percentage of asset class:

	Purchases		Sales	
	31 Jul 25	31 Jul 24	31 Jul 25	31 Jul 24
	%	%	%	%
Taxes				
Collective investment schemes	-	-	-	-

Total transaction cost expressed as a percentage of average NAV:

	31 Jul 25	31 Jul 24
	%	%
Commissions	-	-
Taxes	-	-
Total	**-**	**-**

4. Revenue

	31 Jul 25	31 Jul 24
	£'000	£'000
Distributions from regulated collective investment schemes:		
Non-taxable investment income	1,340	875
Taxable investment income	167	133
Interest distributions	977	420
Offshore distributions non-taxable	481	393
Offshore distributions taxable	550	1,028
Bank interest	2	242
Total revenue	**3,517**	**3,091**

Notes to the financial statements

For the year ended 31 July 2025

5. Expenses

	31 Jul 25 £'000	31 Jul 24 £'000
Payable to the Manager, associates of the Manager, and agents of either of them:		
Manager's service charge*	418	434
Total expenses	**418**	**434**

During the year, and the comparative period, the Manager has borne the auditor's fee of £15,406 (2024: £14,466) and all the fees charged by the Trustee, Financial Conduct Authority and the Registrar, including irrecoverable VAT where applicable.

*The service charge is net of rebates to operating charges on the Fund paid by the Manager, as outlined in note 1(c) on page 15.

6. Taxation

(a) Analysis of the tax charge in the year:

	31 Jul 25 £'000	31 Jul 24 £'000
Corporation tax	231	155
Overseas tax	20	18
Adjustment in respect of prior years	-	(91)
Total current tax	**251**	**82**
Deferred tax	4	106
Total taxation	**255**	**188**

Notes to the financial statements

For the year ended 31 July 2025

(b) Factors affecting the tax charge for the year:

The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust which is 20% (2024: 20%).

The differences are explained below:

	31 Jul 25 £'000	31 Jul 24 £'000
Net revenue before taxation	**3,096**	**2,657**
Corporation tax of 20% (2024: 20%)	619	531
Effects of:		
Revenue not subject to taxation	(364)	(252)
Overseas tax	20	18
Double taxation relief - Total	(20)	(18)
Deferred tax prior year adjustment	-	(91)
Total current tax (note 6(a))	**255**	**188**

Authorised Unit Trusts are exempt from tax on capital gains in the UK. Therefore, any capital gain is not included in the above reconciliation.

(c) Factors affecting future tax charge:

At the year end, there is a potential deferred tax asset of £19,169 (2024: £15,194) in relation to surplus management expenses. No deferred tax assets have been recognised.

7. Distributions

The distributions take account of revenue received on the issue of units and amounts deducted on the cancellation of units, and comprise:

	31 Jul 25 £'000	31 Jul 24 £'000
Interim	1,730	1,574
Final	1,162	936
	2,892	**2,510**
Add: Equalisation deducted on cancellation of units	37	125
Less: Equalisation received on issue of units	(88)	(165)
Net distribution for the year	**2,841**	**2,470**

Details of the distributions per unit are set out in the Distribution tables on page 27.

Notes to the financial statements

For the year ended 31 July 2025

8. Debtors

	31 Jul 25 £'000	31 Jul 24 £'000
Accrued revenue	572	323
Amounts receivable for issue of units	-	28
Sales awaiting settlement	(1)	(18)
Income tax recoverable	39	33
Total debtors	**610**	**366**

9. Cash and bank balances

	31 Jul 25 £'000	31 Jul 24 £'000
Cash and bank balances	-	436
Total cash and bank balances	**-**	**436**

10. Provision for liabilities

	31 Jul 25 £'000	31 Jul 24 £'000
Provision at start of the year - PY adjustment	**15**	(91)
Deffered tax	**4**	106
Total Provision for liabilities	**19**	**15**

Notes to the financial statements

For the year ended 31 July 2025

11. Other creditors

	31 Jul 25 £'000	31 Jul 24 £'000
Accrued expenses	36	28
Amounts payable on cancellation of units	18	-
Corporation tax payable	140	154
Total creditors	**194**	**182**

12. Related party transactions

Investments managed by Virgin Money Unit Trust Managers Limited (VMUTM) are denoted in the Portfolio statement and purchases and sales of investments.

Revenue received from VMUTM related investments during the year was £31,867 (2024: £32,612).

Management fees paid to VMUTM are detailed in note 5 and details of units issued and cancelled by VMUTM are shown in the Statement of change in net assets attributable to unitholders. The balance due to VMUTM at the year end in respect of these transactions was £36,254 (2024: £27,787).

In order to maintain the operating charges of the Fund at 0.45% (2024: 0.45%) for Income Units and 0.45% (2024: 0.45%) for Accumulation Units, the Manager has rebated to the Fund an amount equivalent to the value of the operating charges incurred by investing in the underlying securities. For the year ended 31 July 2025 the rebate amounted to £219,276 (2024: £214,066).

Investments managed by subsidiaries of Aberdeen plc are denoted in the Portfolio statement and purchases and sales of investments.

Revenue received from investments managed by abrdn Investments Limited during the year was £2,383,483 (2024: £1,239,134).

Certain directors or close family members of directors own units in the Fund. At the balance sheet date, Accumulation units held were 10,410 and distributions payable in respect of such unit holdings were £91.39.

13. Capital commitments and contingent liabilities

On 31 July 2025, the Fund had no capital commitments (2024: £nil) and no contingent liabilities (2024: £nil).

Notes to the financial statements

For the year ended 31 July 2025

14. Financial risk management, derivatives and other financial instruments

The risks inherent in the Fund's investment portfolio are as follows:

(a) Financial Risk Management

Financial risk can be separated into the following components: market risk, credit risk and liquidity risk. The table below and overleaf is provided to enable users of these financial statements to assess and understand the risks that arise in connection with the financial instruments held by the Fund and how those risks are managed.

Risks are set out in order of significance.

Risk	Risk definition	Risk background and significance	Mitigation technique	Quantitative analysis
1) Market risk	The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: other price risk, interest rate risk, and currency risk.	See below.	See below.	See below.
1a) Other price risk	This is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk and currency risk), whether those changes are caused by factors specific to individual financial instruments or its issuer, or other factors affecting similar financial instruments traded in the market.	Other price risk arises from uncertainty about future prices of financial instruments the Fund holds. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. As with all equity based unit trusts, the Fund is exposed to a significant level of other price risk.	The Manager carries out regular monitoring of the performance of the fund. The Investment Adviser only selects portfolio holdings which are in line with the investment objective of the fund and the Manager carries out a separate periodic review of the portfolio holdings to ensure they are in line with the investment objective and that all relevant regulations are being met.	See 13(b).

Notes to the financial statements

For the year ended 31 July 2025

Risk	Risk definition	Risk background and significance	Mitigation technique	Quantitative analysis
1b) Interest rate risk	The risk that an investment's value will change due to a change in the absolute level of interest rates, in the spread between two rates, in the shape of the yield curve or in any other interest rate relationship.	Around 75% of the Fund's financial assets are the other underlying funds which invests in equity shares and other investments which neither pay interest nor have a maturity date. Therefore, the Fund's exposure to interest rate risk is considered insignificant for that proportion of the assets. The other 25% of the Fund's financial assets are the other underlying funds which invests in fixed rate securities, for which any change to the prevailing interest rates may result in income increasing or decreasing and the value of securities held increasing or decreasing. In addition, changes in expectations of future interest rates may also result in an increase or decrease in the value of the securities held. In general, if interest rates rise the income potential of the Fund also rises, but value of the fixed rate securities will decline. A decline in interest rates will, in general, have the opposite effect.	The Manager of the Fund sets limits for interest rate risk. The Investment Advisor monitors this risk continuously, using a measure called modified duration, to ensure that the risk remains within the limits prescribed.	See 13 (d).
1c) Currency risk	The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.	The vast majority of the net assets of the Fund are denominated in sterling, with the effect that the balance sheet and total return cannot be materially affected by currency movements. Given this, the Manager does not consider the Fund has a significant exposure to currency risk.	As the Manager does not consider the Fund has significant exposure to currency risk, no formal mitigation techniques are adopted by the Investment Adviser or the Manager.	Not applicable.

Notes to the financial statements

For the year ended 31 July 2025

Risk	Risk definition	Risk background and significance	Mitigation technique	Quantitative analysis
2) Credit risk	This is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. This includes counterparty risk and issuer risk.	Certain transactions in securities the Fund enters into expose it to the risk that the counterparty will not deliver the investments for a purchase, or cash for a sale after the Fund has fulfilled its responsibilities. Given the mitigation techniques followed, the Manager does not consider the Fund has a significant exposure to counterparty risk. Issuer risk is not considered to be significant as the vast majority of the Fund's assets are collective investment schemes where the issuer has monetary obligations to the Fund.	The Fund only buys and sells investments through brokers which have been approved by the Manager as an acceptable counterparty. In addition, limits are set to the exposure to any individual broker that may exist at any time, and changes in brokers' financial ratings are reviewed. The Fund's assets including cash are held on trust for the benefit of unitholders by the Trustee. The financial position of the Trustee is itself monitored on a regular basis by the Manager.	Not applicable.
3) Liquidity risk	The risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities, including redemption liability.	All of the Fund's financial assets are considered to be readily realisable in accordance with the market practices of the exchange on which they are traded. Given this, the Manager does not consider that the Fund has a significant exposure to liquidity risk.	In general, the Investment Adviser manages the Fund's cash to ensure it can meet its liabilities. Where investments cannot be realised in time to meet any potential liability, the Fund may borrow up to 10% of its value to ensure settlement.	Not applicable.

(b) Other price risk and fair value of financial assets and liabilities

There is no material difference between the carrying values and the fair values of the financial assets and liabilities of the Fund disclosed in the Balance sheet.

A 1% increase in the market price of investments at 31 July 2025 compared to the fair value reported would have caused net capital gains to increase by £1,573,810 (2024: £1,281,700) and the net asset value to increase by £1,573,810 (2024: £1,281,700). A decrease would have had an equal and opposite effect.

(c) Currency exposures

The Fund's investments are denominated in sterling, the Fund's functional currency. The market prices of a number of the Fund's sterling-denominated investments are influenced by underlying currency movements. This is consistent with the exposure during both the current and prior year. However the influence of currency movements is not separately quantified.

Notes to the financial statements

For the year ended 31 July 2025

(d) Interest rate risk profile and sensitivity analysis

As part of the Strategic Asset Allocation process, our Investment Managers conduct quantitative analysis within an optimisation process to ensure the funds have the right mix of assets for each funds risk and return profile. The Fund does not hold any material direct investments in fixed income securities such as bonds. However, it does have exposure to interest rate risk indirectly through its investments in fund-of-funds structures, which include underlying holdings in bonds or other interest rate-sensitive instruments. Given the nature of these indirect exposures and the lack of transparency into the specific composition and duration of the underlying holdings, interest rate sensitivity is not separately quantified.

15. Reconciliation of the unit movements in the year

	31 Jul 25 Income Units	31 Jul 25 Accumulation Units
Opening units in issue on 1 Aug 24	76,184,578	26,190,796
Creations during the year	3,047,571	20,834,633
Cancellations during the year	(5,732,408)	(1,325,628)
Closing units in issue on 31 Jul 25	**73,499,741**	**45,699,801**

16. Fair value hierarchy

	31 Jul 25		31 Jul 24	
	Assets	Liabilities	Assets	Liabilities
Valuation technique - Investments	**£'000**	**£'000**	**£'000**	**£'000**
Level 1	20,803	-	19,432	-
Level 2	136,578	-	108,738	-
Level 3	-	-	-	-
	157,381	**-**	**128,170**	**-**

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

Distribution tables

For the year ended 31 July 2025

Distribution in pence per unit

Interim distribution paid 31 March 2025

Group 1 Units purchased prior to 1 August 2024
Group 2 Units purchased from 1 August 2024 to 31 January 2025 inclusive

	Revenue (p)	Equalisation (p)	Distribution paid 31 Mar 25 (p)	Distribution paid 28 Mar 24 (p)
Income units				
Group 1	1.6415	-	1.6415	1.7922
Group 2	1.0622	0.5793	1.6415	1.7922
Accumulation units				
Group 1	1.3811	-	1.3811	1.4183
Group 2	0.9014	0.4797	1.3811	1.4183

Final distribution payable 30 September 2025

Group 1 Units purchased prior to 1 February 2025
Group 2 Units purchased from 1 February 2025 to 31 July 2025 inclusive

	Revenue (p)	Equalisation (p)	Distribution payable 30 Sep 25 (p)	Distribution paid 30 Sep 24 (p)
Income units				
Group 1	1.0357	-	1.0357	0.9392
Group 2	0.7310	0.3047	1.0357	0.9392
Accumulation units				
Group 1	0.8779	-	0.8779	0.8418
Group 2	0.6020	0.2759	0.8779	0.8418

Equalisation

Equalisation applies only to units purchased during the distribution period (Group 2 units). It is the average amount of income included in the purchase price of all Group 2 units and is refunded to holders of these units as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of units for capital gains tax purposes.

Statement of the Manager's responsibilities

For the year ended 31 July 2025

The Collective Investment Schemes Sourcebook published by the FCA, ('the COLL Rules') require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund and of the net income and net gains or losses on the property of the Fund for the period.

In preparing the financial statements the Manager is responsible for:

- selecting suitable accounting policies and then apply them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* ;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014 and updated in June 2017;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Fund and it's sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Fund or its sub-funds or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Fund in accordance with the Trust Deed, Prospectus and the COLL Rules.

The Manager is responsible for the maintenance and integrity of the corporate and financial information included on the Trust's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Final Report and Financial Statements were approved by the Manager and signed on its behalf by:

Rich Milne
Director
20 Nov 2025

Paula Moore
Director
20 Nov 2025

Independent Auditor's report to the unitholders of the Virgin Money Growth Fund 2 (the 'Trust')

For the year ended 31 July 2025

Opinion

We have audited the financial statements of the Trust for the year ended 31 July 2025 which comprise the Statement of Total Return, the Statement of Change in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables and the accounting policies set out on pages 15 to 16.

In our opinion the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland, of the financial position of the Trust as at 31 July 2025 and of the net revenue and the net capital gains on the property of the Trust for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to Authorised Funds, and the COLL Rules.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Trust in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going Concern

The Manager has prepared the financial statements on the going concern basis as they do not intend to liquidate the Trust or to cease their operations, and as they have concluded that the Trust's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the Manager's conclusions, we considered the inherent risks to the Trust's business model and analysed how those risks might affect the Trust's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Manager's assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Trust's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Trust will continue in operation.

Independent Auditor's report to the unitholders of the Virgin Money Growth Fund 2 (the 'Trust')

For the year ended 31 July 2025

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors as to the Trust's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud;
- Assessing the segregation of duties in place between the Manager, the Trustee, the Administrator and the Investment Adviser;
- Reading board minutes.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because the revenue is principally non-judgemental and based on publicly available information, with limited opportunity for manipulation. We did not identify any additional fraud risks.

We evaluated the design and implementation of the controls over journal entries and other adjustments and made inquiries of the Administrator about inappropriate or unusual activity relating to the processing of journal entries and other adjustments. We identified and selected a sample of journal entries made at the end of the reporting period and tested those substantively including all material post-closing entries. Based on the results of our risk assessment procedures and understanding of the process, including the segregation of duties between the Directors and the Administrator, no further high-risk journal entries or other adjustments were identified.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the Manager and the Administrator (as required by auditing standards) and discussed with the Directors the policies and procedures regarding compliance with laws and regulations.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Trust is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related authorised fund legislation maintained by the Financial Conduct Authority) and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Trust is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: money laundering, data protection and bribery and corruption legislation recognising the Trust's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and the Administrator and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Independent Auditor's report to the unitholders of the Virgin Money Growth Fund 2 (the 'Trust')

For the year ended 31 July 2025

Other Information

The Manager (Virgin Money Unit Trust Managers Limited) is responsible for the other information presented in the Annual Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in the Manager's Report for the financial year is consistent with the financial statements.

Matters on Which we are Required to Report by Exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Trust have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's Responsibilities

As explained more fully in their statement set out on page 28, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Trust's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ('the COLL Rules') issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Manager's remuneration (Unaudited)

For the year ended 31 July 2025

In accordance with the FCA's UCITS Remuneration Code, Virgin Money Unit Trust Managers Limited ("VMUTM"), as the Manager, is required to establish and apply a remuneration policy for certain categories of staff whose activities have a material impact on the risk profile of the Manager or the UK UCITS funds ("UCITS") that it manages ("UCITS Remuneration Code Staff" or "Code Staff"). VMUTM does not directly employ any staff, other than its two independent non-executive directors. All other staff involved in the management of the Fund were provided from Virgin Money UK PLC and also from Aberdeen plc (previously one of the ultimate parent entities) on a secondment basis. The Manager has established a remuneration policy to ensure that remuneration for its Code Staff:

(i) are consistent with and promote sound and effective risk management;

(ii) does not encourage risk taking that exceeds the level of tolerated risk of VMUTM or that is inconsistent with the risk profile of the UCITS funds it manages; and

(iii) encourages behaviours that are aligned with the business strategy, objectives, values and interests of VMUTM, the UCITS funds it manages, and the investors in those UCITS funds, and seeks to avoid conflicts of interest.

The remuneration policy is subject to annual review by the Compliance function and is approved annually by the Board of VMUTM.

Employee Remuneration Disclosure

The table below provides an overview of the following:

Aggregate total remuneration paid by VMUTM to its Code Staff – in other words those individuals who could have a material impact on the risk profile of VMUTM or the UCITS funds it manages, including the Virgin Money Growth Fund 2.

This broadly includes senior management, decision makers and control functions. VMUTM has no employees. For the purpose of this disclosure, Code Staff includes individuals employed by Virgin Money UK PLC or Aberdeen plc who were seconded full-time to VMUTM.

Amounts shown below reflect payments made in respect of the 15-month period 1 January 2024 to 31 March 2025 pro-rated to 12 months for comparative purposes.

Virgin Money Growth Fund 2 Reporting period: 1/08/24-31/07/25	Headcount	Total Remuneration £'000 [1]	Proportion relevant to Virgin Money Growth Fund 2 £'000 [2]
VMUTM Code staff [3]	18		
Total remuneration		1,915	66
of which			
Fixed remuneration		1,484	51
Variable remuneration		431	15

[1] These figures represent the total remuneration paid by VMUTM to Code Staff as defined in note 3

[2] These figures represent the proportion of the amounts in the previous column, based on the average assets under management of the Virgin Money Growth Fund 2 in 2024 compared to the average total assets under management in 2024 of all funds of which VMUTM is the manager.

[3] Code Staff comprises:

i) Directors of VMUTM, including the independent non-executive directors (fees invoiced directly to VMUTM), non-executive directors appointed by the parent companies of VMUTM which are Virgin Money UK PLC (these directors were not remunerated for carrying out this role, which is an immaterial part of the work they did for Virgin Money UK PLC) and the Chief Executive Officer of VMUTM (seconded from Virgin Money UK PLC).

ii) Other members of the VMUTM Executive Committee, which includes individuals with significant management functions, plus staff engaged in control functions.

Statement of the Trustee's responsibilities

in respect of the Scheme and Report of the Trustee to the Unitholders of the Virgin Money Growth Fund 2 (“the Trust”)
For the year ended 31 July 2025

It is the duty of the Depositary in its capacity as Trustee to take reasonable care to ensure that the Trust is managed and operated in accordance with the Financial Conduct Authority’ Collective Investment Schemes Sourcebook (“the Sourcebook”), the Financial Services and Markets Act 2000, as amended, [the Money Market Funds Regulation, as amended]* (together “the Regulations”), and the Trust Deed and the Prospectus of the Trust (together “the Scheme documents”) as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Depositary is responsible for the safekeeping all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Depositary must ensure that:

- the Trust’s cash flows are properly monitored, and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- the Trust’s income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager (“the AFM”), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

Having carried out procedures and enquiries considered duly necessary to discharge our responsibilities as Trustee of the scheme, based on information and explanations provided to us, we believe that, in all material respects, the AFM:

(i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust’s units and the application of the Trust’s income in accordance with the Regulation and the Scheme Documents of the Trust; and,

(ii) has observed the investment and borrowing powers and restrictions applicable to the Trust.
